# MERICRUSHER

MERICRUSHERs for land clearing are high quality, durable and cost-effective machines for demanding professionals. Crusher series cover a wide power range of tractors from 50 to 700 horse power.

*MJ-* and *MJS-* models for working in conditions where light weight and durability are paramount. For more demanding conditions and for bigger tractors *MJH-* and *MJF-* models are the right choices. MeriCrushers can be equipped with patented screen unit, which enables excellent crushing results.

MULTIPURPOSE MERICRUSHER FOR: SOIL CULTIVATION >>> STUMP CRUSHING >>> SCRUB CLEARING

**MJ** clearing forest after logging

**MJS** crushing stumps after logging

**MJH** reclaiming soil for farming

**MJH** reclaiming soil for farming

**MeriCrushers MJH and MJF** models can be equipped with patented sizing screen

**MJF** Crushing of frozen soil from pipeline construction

All models can be supplied with mechanical or hydraulic transmission. Heavy duty transmission lines are designed up to 700 hp.

MERICRUSHER MODELS	Power range (hp)		Rotor diameter mm	Rotor width mm
	min	max		
<b>MJ</b>	50	150	400	1400-2300
<b>MJS</b>	120	300	500	1900-2400
<b>MJH</b>	200	700	600	1200-3500
<b>MJF</b>	280	700	800	2400-2900

>>> GRAVEL ROAD >>> LAND CLEARING >>> ICE REMOVAL >>> PROPERTY CLEARING

**MJH** reclaiming soil after logging

**MC4-Hydraulic** crushing of ice from parking area

**MC4-Hydraulic** clearing of property from dense vegetation

**MJF** Clearing new farm land

**MC4-Hydraulic** mounted to excavator

**MJS-Hydraulic** mounted to skids steer

# MERIROAD

Power and Performance for road maintenance

MeriRoad offers four unique, high quality, durable and cost-effective solutions for general road maintenance operations.

MERIROAD MODELS	Power range (hp)	Rotor diameter mm	Rotor width mm
	min max		
<b>RC-4000</b>	50-150	400	2250
<b>RC-6000</b>	130-300	600	1950-2450
<b>RC65</b>	180-400	600-650	2250-2450
<b>RC-8000</b>	150-300	800	2435

# MERITRACTOR

Equipped with mechanical power take-off is the most efficient crawler tractor in the market. The MT 700 can operate under conditions where conventional tractors lose power and traction. Thanks to adequate engine power, and a mechanical power take-off, the MT 700 enables quicker, more efficient operations at a lower cost per hectare.

**MT-700** with steel tracks and MJH-2.4 meter crusher clearing dense vegetation. Crusher is equipped with heavy duty push bar and sizing screen.

**MT-700** with double rubber tracks and MJH-3.5 meter crusher clearing new farm land after logging.
